|----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Article Name | WM1727A Viable Cells |
| Biozol Catalog Number | ROC-WM1727A-01-0010 |
| Supplier Catalog Number | WM1727A-01-0010 |
| Alternative Catalog Number | ROC-WM1727A-01-0010 |
| Manufacturer | Rockland Immunochemicals |
| Category | Zellen/Zellkultur |
| Conjugation | Unconjugated |
| Product Description | WM1727A is a metastatic human melanoma cell line that displays pigmented melanocytic morphology and float easily in culture medium. WM1727A cells produce xenograft tumors when injected into immunocompromised mice. This cell line features the specific... |
| Concentration | 1.0 million cells/mL (Count By Hemocytometer) |
| Buffer | None |
| Source | Human |
| Form | Frozen Cell Suspension |
| Application Notes | The key applications of these cell lines include genetic studies, xenograft production, drug testing, and drug target discovery. These cell line models can be used in various biological assays, and for identifying critical target genes, and cell signaling pathways. |
