| Category                   | Biochemikalien                                                                                                                                                                                                                                                   |
| Product Description        | L-Tyrosine-induced antinociception is mediated by central .delta.-opioid receptors and by the bulbo-spinal noradrenergic system.<br>Synonyms: L-Tyrosine Methyl Ester, (S)-2-Amino-3-(4-hydroxyphenyl)propionic Acid Methyl Ester, Methyl Tyrosinate, Methyl ... |
| Molecular Weight           | 195.22                                                                                                                                                                                                                                                           |
| Form                       | Supplied as a white solid.                                                                                                                                                                                                                                       |
| CAS Number                 | [1080-06-4]                                                                                                                                                                                                                                                      |
