| Alternative Catalog Number | USB-Z0901-200                                                                                                                                                                                                                                                 |
| Manufacturer               | US Biological                                                                                                                                                                                                                                                 |
| Host                       | Rabbit                                                                                                                                                                                                                                                        |
| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | ELISA, FC, IHC, WB                                                                                                                                                                                                                                            |
| Immunogen                  | KLH-conjugated synthetic peptide mapping to a fragment of residues within amino acids 689-719 in the C-terminal region of human ZYG11B.                                                                                                                       |
| Product Description        | ZYG11B probably acts as target recruitment subunit in the E3 ubiquitin ligase complex ZYG11B-CUL2-Elongin BC. Applications: Suitable for use in ELISA, Western Blot, Immunohistochemistry and Indirect Flow Cytometry. Other applications not tested. Reco... |
