| Product Description        | This GENLISA Fish Inositol 1, 4, 5,-Trisphosphate (IP3) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy and Precision Validate... |
| Range                      | 156.25 - 10000 pg/ml                                                                                                                                                                                                                                          |
| Sensitivity                | 48.6 pg/ml                                                                                                                                                                                                                                                    |
| Samples                    | Serum, Plasma, Cell Culture Supernatant and other biological samples. Validated for citrated/EDTA Plasma only.                                                                                                                                                |
