| Application                | FC, ICC, IF, IHC, IP, WB                                                                                                                                                                            |
| Conjugation                | Unconjugated                                                                                                                                                                                        |
| Product Description        | JNK1+2+3 antibody LS-C497684 is an unconjugated rabbit monoclonal antibody to JNK1+2+3 (JNK1 pThr183 and JNK2 pThr183 and JNK3 pThr221) from human. Validated for Flow, ICC, IF, IHC, IP and WB.... |
| Clonality                  | Monoclonal                                                                                                                                                                                          |
| Buffer                     | PBS, pH 7.3, 0.02% Sodium Azide, 50% Glycerol                                                                                                                                                       |
| Purity                     | Affinity purified                                                                                                                                                                                   |
| Form                       | PBS, pH 7.3, 0.02% Sodium Azide, 50% Glycerol                                                                                                                                                       |
| Application Dilute         | Flo (1:20 - 1:50), ICC (1:50 - 1:200), IF (1:50 - 1:100), IHC (1:50 - 1:200), IP (1:20 - 1:50), WB (1:500 - 1:2000)                                                                                 |

#### Application Notes

The predicted MW is 35kDa/44kDa/48kDa/27kDa/52kDa, while the observed MW by Western blot was 46kDa/54kDa.
