| Conjugation                | Unconjugated                                                                                                                                                                                                             |
| Product Description        | Ribosomal Protein L5 antibody LS-C331799 is an unconjugated rabbit polyclonal antibody to Ribosomal Protein L5 (RPL5) from human. It is reactive with human, mouse and rat. Validated for IF, IHC and WB....             |
| Clonality                  | Polyclonal                                                                                                                                                                                                               |
| NCBI                       | <a href="#">6125</a>                                                                                                                                                                                                     |

|                    |                                                                             |
|--------------------|-----------------------------------------------------------------------------|
| Buffer             | PBS, pH 7.3, 0.02% Sodium Azide, 50% Glycerol                               |
| Purity             | Affinity purified                                                           |
| Form               | PBS, pH 7.3, 0.02% Sodium Azide, 50% Glycerol                               |
| Application Dilute | IF (1:50 - 1:200), IHC (1:50 - 1:200), WB (1:500 - 1:2000)                  |
| Application Notes  | The predicted MW is 34kDa, while the observed MW by Western blot was 37kDa. |
