| Alternative Catalog Number | LS-N131729-1                                                                                                                                                        |
| Manufacturer               | LifeSpan Biosciences                                                                                                                                                |
| Category                   | Molekularbiologie                                                                                                                                                   |
| Species Reactivity         | Mouse                                                                                                                                                               |
| Product Description        | Mouse SLC6A6 / Taurine Transporter Expression-Ready ORF Clone in Mammalian Expression Vector pCMV3-C-OFP, with C-Terminal OFP tag. Approximately 10 ug per unit.... |
| Concentration              | Worldwide                                                                                                                                                           |
| NCBI                       | <a href="#">131729</a>                                                                                                                                              |
| UniProt                    | 6533                                                                                                                                                                |
| Purity                     | The insert is confirmed by full-length sequencing with the sequencing primers listed.                                                                               |
| Form                       | Lyophilized                                                                                                                                                         |
| Application Notes          | Most commercially available competent cells are appropriate for propagation of the plasmid, e.g. TOP10, DH5a, and TOP10F.                                           |
