| Manufacturer               | LifeSpan Biosciences                                                                                                             |
| Category                   | Molekularbiologie                                                                                                                |
| Species Reactivity         | Mouse                                                                                                                            |
| Product Description        | Mouse PDLIM7 / Enigma Expression-Ready ORF Clone in Mammalian Expression Vector pCMV3-Untagged. Approximately 10 ug per unit.... |
| Concentration              | Worldwide                                                                                                                        |
| NCBI                       | <a href="#">136248</a>                                                                                                           |
| UniProt                    | 9260                                                                                                                             |
| Purity                     | The insert is confirmed by full-length sequencing with the sequencing primers listed.                                            |
| Form                       | Lyophilized                                                                                                                      |
| Application Notes          | Most commercially available competent cells are appropriate for propagation of the plasmid, e.g. TOP10, DH5a, and TOP10F.        |
