| Alternative Catalog Number | LS-N141718-1                                                                                                                                           |
| Manufacturer               | LifeSpan Biosciences                                                                                                                                   |
| Category                   | Molekularbiologie                                                                                                                                      |
| Species Reactivity         | Mouse                                                                                                                                                  |
| Product Description        | Mouse Amisyn / STXBP6 Expression-Ready ORF Clone in Mammalian Expression Vector pCMV3-N-His, with N-Terminal His tag. Approximately 10 ug per unit.... |
| Concentration              | Worldwide                                                                                                                                              |
| NCBI                       | <a href="#">141718</a>                                                                                                                                 |
| UniProt                    | 29091                                                                                                                                                  |
| Purity                     | The insert is confirmed by full-length sequencing with the sequencing primers listed.                                                                  |
| Form                       | Lyophilized                                                                                                                                            |
| Application Notes          | Most commercially available competent cells are appropriate for propagation of the plasmid, e.g. TOP10, DH5a, and TOP10F.                              |
