| Alternative Catalog Number | LS-N144871-1                                                                                                                                             |
| Manufacturer               | LifeSpan Biosciences                                                                                                                                     |
| Category                   | Molekularbiologie                                                                                                                                        |
| Species Reactivity         | Rat                                                                                                                                                      |
| Product Description        | Rat CD69 Expression-Ready ORF Clone in Mammalian Expression Vector pCMV3-SP-N-DDK (Flag, with N-Terminal DDK (Flag tag. Approximately 10 ug per unit.... |
| Concentration              | Worldwide                                                                                                                                                |
| NCBI                       | <a href="#">144871</a>                                                                                                                                   |
| UniProt                    | 969                                                                                                                                                      |
| Purity                     | The insert is confirmed by full-length sequencing with the sequencing primers listed.                                                                    |
| Form                       | Lyophilized                                                                                                                                              |
| Application Notes          | Most commercially available competent cells are appropriate for propagation of the plasmid, e.g. TOP10, DH5a, and TOP10F.                                |
