| Supplier Catalog Number    | LS-N145424-1                                                                                                                                    |
| Alternative Catalog Number | LS-N145424-1                                                                                                                                    |
| Manufacturer               | LifeSpan Biosciences                                                                                                                            |
| Category                   | Molekularbiologie                                                                                                                               |
| Species Reactivity         | Rat                                                                                                                                             |
| Product Description        | Rat Clec4a2 Expression-Ready ORF Clone in Mammalian Expression Vector pCMV3-SP-N-His, with N-Terminal His tag. Approximately 10 ug per unit.... |
| Concentration              | Worldwide                                                                                                                                       |
| NCBI                       | <a href="#">145424</a>                                                                                                                          |
| Purity                     | The insert is confirmed by full-length sequencing with the sequencing primers listed.                                                           |
| Form                       | Lyophilized                                                                                                                                     |
| Application Notes          | Most commercially available competent cells are appropriate for propagation of the plasmid, e.g. TOP10, DH5a, and TOP10F.                       |
