| Manufacturer               | LifeSpan Biosciences                                                                                                      |
| Category                   | Molekularbiologie                                                                                                         |
| Species Reactivity         | Human                                                                                                                     |
| Product Description        | Human PGPEP1 Expression-Ready ORF Clone in Mammalian Expression Vector pCMV3-Untagged. Approximately 10 ug per unit....   |
| Concentration              | Worldwide                                                                                                                 |
| NCBI                       | <a href="#">170125</a>                                                                                                    |
| UniProt                    | 54858                                                                                                                     |
| Purity                     | The insert is confirmed by full-length sequencing with the sequencing primers listed.                                     |
| Form                       | Lyophilized                                                                                                               |
| Application Notes          | Most commercially available competent cells are appropriate for propagation of the plasmid, e.g. TOP10, DH5a, and TOP10F. |
