| Alternative Catalog Number | LS-N170126-1                                                                                                                                  |
| Manufacturer               | LifeSpan Biosciences                                                                                                                          |
| Category                   | Molekularbiologie                                                                                                                             |
| Species Reactivity         | Human                                                                                                                                         |
| Product Description        | Human TMBIM1 Expression-Ready ORF Clone in Mammalian Expression Vector pCMV3-C-OFP, with C-Terminal OFP tag. Approximately 10 ug per unit.... |
| Concentration              | Worldwide                                                                                                                                     |
| NCBI                       | <a href="#">170126</a>                                                                                                                        |
| UniProt                    | 64114                                                                                                                                         |
| Purity                     | The insert is confirmed by full-length sequencing with the sequencing primers listed.                                                         |
| Form                       | Lyophilized                                                                                                                                   |
| Application Notes          | Most commercially available competent cells are appropriate for propagation of the plasmid, e.g. TOP10, DH5a, and TOP10F.                     |
