| Manufacturer               | Biorbyt                                                                                                                                                   |
| Category                   | Biochemikalien                                                                                                                                            |
| Product Description        | Pyrroloquinoline quinone (PQQ) is used as a cofactor (prosthetic group) for enzyme-catalyzed redox reactions of glucose and methanol dehydrogenase(s).... |
| Molecular Weight           | 374.17                                                                                                                                                    |
| CAS Number                 | [122628-50-6]                                                                                                                                             |
| Formula                    | C14H4N2Na2O8                                                                                                                                              |
