| Species Reactivity         | Mouse, Rat, Xenopus                                                                                                                                                                                                                                           |
| Immunogen                  | Fusion protein amino acids 564-624 of mouse Slo2.1 (accession number XP_920840) produced recombinantly in E. Coli                                                                                                                                             |
| Conjugation                | FL490                                                                                                                                                                                                                                                         |
| Product Description        | Our Anti-Slo2.1/Slick K+ channel mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone N11/33. It is KO validated, detects mouse, rat, and Xenopus Slo2.1/Slick K+ channel, and is purified by Protein A chromatograph... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | 0.5 mg/mL                                                                                                                                                                                                                                                     |

|                   |                                      |
|-------------------|--------------------------------------|
| Clone Designation | [N11/33]                             |
| Molecular Weight  | 140 kDa                              |
| Isotype           | IgG1                                 |
| UniProt           | <a href="#">D3Z649</a>               |
| Buffer            | PBS with 0.09% azide                 |
| Purity            | Purified by Protein A chromatography |
| Form              | Purified by Protein A chromatography |
| Target            | Slo2.1/Slick K+ channel              |
| Antibody Type     | Primary Antibody                     |
