| Product Description        | Phospho-CDC25C (Thr48) Colorimetric Cell-Based ELISA Kit for detecting Phospho-CDC25C (Thr48) in researchers plate their cell line of choice. Species Reactivity: Human (Homo sapiens). Detection Range: Qualitative. Sensitivity: At least 5000 cells/wel |
| Range                      | Qualitative                                                                                                                                                                                                                                                |
| Sensitivity                | At least 5000 cells/well                                                                                                                                                                                                                                   |
| NCBI                       | 995                                                                                                                                                                                                                                                        |
| Form                       | 96-Well Plate                                                                                                                                                                                                                                              |
