| Category                   | Proteine/Peptide                                                                                                                                                                                                                    |
| Immunogen                  | Recombinant Human LYPD3 Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Leu31-His286) of human LYPD3/C4.4A (Accession NP_055215.2.) fused with a 6*His tag at the C-terminus. |
| Conjugation                | Unconjugated                                                                                                                                                                                                                        |
| Product Description        | Human LYPD3 protein (Recombinant) (C-His)...                                                                                                                                                                                        |
