Simian NGF(Nerve Growth Factor) ELISA Kit EBT-ELK7900

Article Name	Simian NGF(Nerve Growth Factor) ELISA Kit
Biozol Catalog Number	EBT-ELK7900
Supplier Catalog Number	ELK7900
Alternative Catalog Number	EBT-ELK7900-96,EBT-ELK7900-48,EBT-ELK7900-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Primate
Concentration	1000 pg/mL
Range	15.63-1000 pg/mL
Sensitivity	6.2 pg/mL
Samples	Serum, plasma, tissue homogenates, cell lysates and other biological fluids.

Application Notes	<p>Assay Type: Sandwich. Assay length: 3.5h. Research Area: Cytokine, Neuro science,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Simian NGF. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Simian NGF. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Simian NGF, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Simian NGF in the samples is then determined by comparing the OD of the samples to the standard curve</p>
