| Immunogen                  | Recombinant fragment (around aa 379-491) human DSG3 protein (exact sequence is proprietary)                                                                                                                                                                   |
| Product Description        | Recognizes a protein of 130kDa, identified as Desmoglein-3 (DSG3). This MAb is highly specific to Desmoglein-3 and does not cross-react with other members of the Desmoglein-family. DSG3 is a calcium-binding transmembrane glycoprotein component of des... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [DSG3/2796]                                                                                                                                                                                                                                                   |
| Molecular Weight           | 130kDa                                                                                                                                                                                                                                                        |
