| Category                   | Antikörper                                                                                                                                                                                                                                                           |
| Application                | IHC                                                                                                                                                                                                                                                                  |
| Species Reactivity         | Human                                                                                                                                                                                                                                                                |
| Immunogen                  | Recombinant fragment (around aa1-200) of human HLAG protein (exact sequence is proprietary)                                                                                                                                                                          |
| Product Description        | Major histocompatibility complex (MHC), human leukocyte antigen (HLA) molecules are cell-surface receptors that bind foreign peptides and present them to T lymphocytes. MHC class I molecules consist of two polypeptide chains, an $\alpha$ or heavy chain, and... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                           |
| Clone Designation          | [HLAG/7095]                                                                                                                                                                                                                                                          |
| Molecular Weight           | 39kDa                                                                                                                                                                                                                                                                |
