| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | Recombinant fragment (around aa1-84) of human TFF1 protein (exact sequence is proprietary)                                                                                                                                                                    |
| Product Description        | It recognizes a polypeptide of 6.5kDa, identified as pS2 estrogen-regulated protein. Its epitope is located in the c-terminus of human pS2 protein. pS2 is a trefoil peptide. Trefoil peptides are protease resistant molecules secreted throughout the gu... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [rTFF1/9134]                                                                                                                                                                                                                                                  |
| Molecular Weight           | 6.5kDa                                                                                                                                                                                                                                                        |
