| UniProt                    | <a href="#">P01133</a>                                                                                                                                                                                 |
| Buffer                     | Tris with Glycine, Arginine and NaCl, pH7.5                                                                                                                                                            |
| Source                     | HEK293 cells                                                                                                                                                                                           |
| Purity                     | >95% as determined by SDS-PAGE.                                                                                                                                                                        |
| Form                       | Lyophilized                                                                                                                                                                                            |
| Application Notes          | This protein carries a mouse IgG2a Fc tag at the N-terminus. The protein has a calculated MW of 33.1 kDa. The protein migrates as 35 kDa under reducing (R) condition (SDS-PAGE) due to glycosylation. |
