Product Datasheet

CTNNB1 / catenin beta-1 Peptide PRS-43-659P

Article Name	CTNNB1 / catenin beta-1 Peptide
Biozol Catalog Number	PRS-43-659P
Supplier Catalog Number	43-659P
Alternative Catalog Number	PRS-43-659P-0.1
Manufacturer	ProSci
Category	Proteine/Peptide
Application	Blocking
NCBI	1499
UniProt	P35222
Buffer	CTNNB1 / catenin beta-1 peptide is supplied as 100 µg of dried peptide. When the peptide is reconstituted in 200 µL water, the concentration will be 0.5 mg/mL.
Form	Lyophilized

Application Notes

CTNNB1 / catenin beta-1 peptide is used for blocking the activity of CTNNB1 / catenin beta-1 antibody (catalog number 43-659). The CTNNB1 / catenin beta-1 antibody ships at 0.5 mg/mL and the STK36 Peptide ships as a 100 ug pellet. When peptide is reconstituted in 200 uL water, the concentration will be 0.5 mg/mL, identical to that of the antibody. The best starting ratio would be 1:1 (which means molar excess of peptide relative to antibody when identical volumes are mixed). Mix equal volume of peptide and antibody at the required dilution and leave at ambient temperature for 20 minutes. Then incubate and develop in parallel two blots: one with the antibody and one with the antibody which has been pre-absorbed with the provided peptide..
