Product Datasheet

MUTYH Peptide PRS-45-921P

Article Name	MUTYH Peptide
Biozol Catalog Number	PRS-45-921P
Supplier Catalog Number	45-921P
Alternative Catalog Number	PRS-45-921P-0.1
Manufacturer	ProSci
Category	Proteine/Peptide
Application	Blocking
NCBI	4595
UniProt	Q9UIF7
Buffer	MUTYH peptide is supplied as 100 µg of dried peptide. When the peptide is reconstituted in 200 µL water, the concentration will be 0.5 mg/mL.
Form	Lyophilized

Application Notes

MUTYH Peptide is used for blocking the activity of MUTYH antibody (catalog number 45-921). The MUTYH antibody ships at 0.5 mg/mL and the MUTYH Peptide ships as a 100 ug pellet. When peptide is reconstituted in 200 uL water, the concentration will be 0.5 mg/mL, identical to that of the antibody. The best starting ratio would be 1:1 (which means molar excess of peptide relative to antibody when identical volumes are mixed). Mix equal volume of peptide and antibody at the required dilution and leave at ambient temperature for 20 minutes. Then incubate and develop in parallel two blots: one with the antibody and one with the antibody which has been pre-absorbed with the provided peptide.
