Product Datasheet

Sprouty Peptide PRS-46-430P

Article Name	Sprouty Peptide
Biozol Catalog Number	PRS-46-430P
Supplier Catalog Number	46-430P
Alternative Catalog Number	PRS-46-430P-0.1
Manufacturer	ProSci
Category	Proteine/Peptide
Application	Blocking
NCBI	10252
UniProt	O43609
Buffer	Sprouty peptide is supplied as 100 µg of dried peptide. When the peptide is reconstituted in 200 µL water, the concentration will be 0.5 mg/mL.
Form	Lyophilized

Application Notes

Sprouty Peptide is used for blocking the activity of Sprouty antibody (catalog number 46-430). The Sprouty antibody ships at 0.5 mg/mL and the Sprouty Peptide ships as a 100 ug pellet. When peptide is reconstituted in 200 uL water, the concentration will be 0.5 mg/mL, identical to that of the antibody. The best starting ratio would be 1:1 (which means molar excess of peptide relative to antibody when identical volumes are mixed). Mix equal volume of peptide and antibody at the required dilution and leave at ambient temperature for 20 minutes. Then incubate and develop in parallel two blots: one with the antibody and one with the antibody which has been pre-absorbed with the provided peptide.
