| Manufacturer               | ProSci                                                                                                                                                                 |
| Category                   | Proteine/Peptide                                                                                                                                                       |
| Application                | Blocking                                                                                                                                                               |
| Concentration              | 200 ug/mL                                                                                                                                                              |
| NCBI                       | <a href="#">132789</a>                                                                                                                                                 |
| UniProt                    | <a href="#">Q8TDQ7</a>                                                                                                                                                 |
| Buffer                     | PBS pH 7.2 (10 mM NaH <sub>2</sub> PO <sub>4</sub> , 10 mM Na <sub>2</sub> HPO <sub>4</sub> , 130 mM NaCl) containing 0.1% bovine serum albumin and 0.02% sodium azide |
| Form                       | Liquid                                                                                                                                                                 |
| Application Notes          | GNPDA2 peptide is used for blocking the activity of GNPDA2 antibody.                                                                                                   |
