| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Product Description        | Human NMT1 (Glycylpeptide N-tetradecanoyltransferase 1) ELISA Kit for detecting NMT1 in serum, plasma, cell culture supernatant, cell or tissue lysate, other biological fluids. Species Reactivity: Human (Homo sapiens). Detection Range: 4.688-300pg/ml... |
| Range                      | 4.688-300pg/ml                                                                                                                                                                                                                                                |
| Sensitivity                | 2.813pg/ml                                                                                                                                                                                                                                                    |
| Form                       | 96-Well Plate                                                                                                                                                                                                                                                 |
| Samples                    | Serum, Plasma, Cell Culture Supernates, Cell Lysates, Tissue Homogenates, Other Biological Fluids                                                                                                                                                             |
| Target                     | NMT1                                                                                                                                                                                                                                                          |
