| Species Reactivity         | Gallus                                                                                                                                                                                                                                                        |
| Product Description        | Chicken Immunoglobulin M (IgM) ELISA Kit for detecting IgM in serum, plasma, other biological fluids. Species Reactivity: Chicken (Gallus). Detection Range: 46.88-3,000pg/ml. Sensitivity: 19.27pg/ml. Format: 96-Well Plate. Assay Type: Double-antibody... |
| Range                      | 46.88-3,000pg/ml                                                                                                                                                                                                                                              |
| Sensitivity                | 19.27pg/ml                                                                                                                                                                                                                                                    |
| Form                       | 96-Well Plate                                                                                                                                                                                                                                                 |
