| Product Description        | Mouse Growth Differentiation Factor 15 (GDF15) Mini sample ELISA Kit for detecting GDF15 in serum, plasma, tissue homogenates, cell lysates, cell culture supernates, other biological fluids. Species Reactivity: Mouse (Mus musculus). Detection Range: ... |
| Range                      | 0.156-10ng/ml                                                                                                                                                                                                                                                 |
| Sensitivity                | 0.055ng/ml                                                                                                                                                                                                                                                    |
| NCBI                       | <a href="#">23886</a>                                                                                                                                                                                                                                         |
| Form                       | 96-Well Plate                                                                                                                                                                                                                                                 |
| Samples                    | Serum, Plasma, Tissue Homogenates, Cell Lysates, Cell Culture Supernates, Other Biological Fluids                                                                                                                                                             |
