| Product Description        | Recombinant Human Phospholipid Scramblase 4 (PLSCR4) is a purified Prokaryotic Protein. Purity: >95% by SDS-PAGE. Host: E. coli. Endotoxin Level: <1.0EU per 1ug, by the LAL method. Species: Human (Homo sapiens). Target Name: Phospholipid Scramblase 4... |
| Molecular Weight           | 38kDa                                                                                                                                                                                                                                                         |
| Tag                        | N-Terminal His Tag                                                                                                                                                                                                                                            |
| NCBI                       | <a href="#">57088</a>                                                                                                                                                                                                                                         |
| Buffer                     | PBS, pH7.4, containing 0.01% SKL, 5% Trehalose.                                                                                                                                                                                                               |

|                   |                                    |
