## Product Datasheet

### **AR monoclonal antibody, clone AR441, Clone: [AR441], Mouse, Monoclonal ABN-MAB13322**

|                            |                                                                            |
|----------------------------|----------------------------------------------------------------------------|
| Article Name               | AR monoclonal antibody, clone AR441, Clone: [AR441], Mouse, Monoclonal     |
| Biozol Catalog Number      | ABN-MAB13322                                                               |
| Supplier Catalog Number    | MAB13322                                                                   |
| Alternative Catalog Number | ABN-MAB13322-100                                                           |
| Manufacturer               | Abnova                                                                     |
| Host                       | Mouse                                                                      |
| Category                   | Antikörper                                                                 |
| Application                | FC, IF, IHC-P                                                              |
| Species Reactivity         | Human                                                                      |
| Immunogen                  | A synthetic peptide corresponding to amino acids 300-316 of human AR.      |
| Product Description        | Mouse monoclonal antibody raised against synthetic peptide of human AR.... |
| Clonality                  | Monoclonal                                                                 |
| Clone Designation          | [AR441]                                                                    |
| UniProt                    | 367                                                                        |
| Buffer                     | In 1 mM PBS.                                                               |
| Form                       | Liquid                                                                     |

|                    |                                                                                                                                                                                                                                   |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Sequence           | STEDTAEYSPFKGGYTK                                                                                                                                                                                                                 |
| Target             | AR                                                                                                                                                                                                                                |
| Application Dilute | Flow Cytometry (0.5-1 ug/106 cells in 0.1 mL)Immunofluorescence (0.5-1 ug/mL)Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections) (0.5-1 ug/mL)The optimal working dilution should be determined by the end user. |
