| Host                       | Mouse                                                                                                           |
| Category                   | Antikörper                                                                                                      |
| Application                | ELISA, LF                                                                                                       |
| Species Reactivity         | Protozoa                                                                                                        |
| Product Description        | Mouse monoclonal antibody raised against malaria pf-HRP-2....                                                   |
| Clonality                  | Monoclonal                                                                                                      |
| Clone Designation          | [HM245]                                                                                                         |
| Isotype                    | IgG1                                                                                                            |
| Buffer                     | In 10 mM Phosphate Buffered Saline, pH 8.0 with 50 mM NaCl (0.09% sodium azide).                                |
| Purity                     | >95%                                                                                                            |
| Form                       | Liquid                                                                                                          |
| Application Dilute         | ELISALateral-Flow Immunochromatographic AssayThe optimal working dilution should be determined by the end user. |
