### Anti-Adrenergic Receptor Alpha 2c Antibody, Rabbit, Polyclonal ABT-AN2169

Article Name	Anti-Adrenergic Receptor Alpha 2c Antibody, Rabbit, Polyclonal
Biozol Catalog Number	ABT-AN2169
Supplier Catalog Number	AN2169
Alternative Catalog Number	ABT-AN2169-100UL
Manufacturer	Abcepta
Host	Rabbit
Category	Antikörper
Application	WB
Product Description	The alpha-2-adrenergic receptor is a member of the G protein-coupled receptor superfamily. There are 3 highly homologous subtypes: alpha2A, alpha2B, and alpha2C. These receptors have a critical role in regulating neurotransmitter release from sympathetic neurons and in the transmission of signals from the autonomic nervous system. They are also involved in various physiological processes, including blood vessel contraction, heart rate regulation, and cognitive functions. This antibody is specifically designed to recognize the alpha-2C receptor subtype.
Clonality	Polyclonal
Molecular Weight	49522
NCBI	<a href="#">152</a>
UniProt	<a href="#">P18825</a>
