| Conjugation                | CF647                                                                                                                                                                                                                                                         |
| Product Description        | Recognizes the D1 domain of an N-glycosylated glycoprotein of 120 kDa with intra-chain disulfide bonds, identified as CD50 or ICAM-3 (Leucocyte Workshop VI). CD50 is the major ligand for LFA-1 (CD11a/CD18) and may have signaling role to increase adhe... |
| Concentration              | 0.1 mg/mL                                                                                                                                                                                                                                                     |
| Buffer                     | PBS, 0.1% BSA, 0.05% azide                                                                                                                                                                                                                                    |
