## Product Datasheet

### **CD63 (Late Endosomes Marker)(LAMP3/2881), CF647 conjugate, 0.1mg/mL, Clone: [LAMP3/2881], Mouse, Monoclonal BOT-BNC472881-500**

|                            |                                                                                                                                                                                                                                                               |

| Immunogen                  | Recombinant fragment (around aa 100-197) of human CD63 protein                                                                                                                                                                                                |
| Conjugation                | CF647                                                                                                                                                                                                                                                         |
| Product Description        | This MAb recognizes protein of 26 kDa-60 kDa, which is identified as CD63. The tetraspanins are integral membrane proteins expressed on cell surface and granular membranes of hematopoietic cells and are components of multi-molecular complexes with sp... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | 0.1 mg/mL                                                                                                                                                                                                                                                     |
| Clone Designation          | [LAMP3/2881]                                                                                                                                                                                                                                                  |

|                  |                                                 |
