| Host                       | Mouse                                                                                                                                                                                                                                                         |
| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | IHC-P                                                                                                                                                                                                                                                         |
| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | A recombinant fragment (within amino acids 500-700) of human APP protein was used as the immunogen for the Amyloid beta antibody.                                                                                                                             |
| Product Description        | Proteolytic cleavage of the Amyloid protein precursor (APP) gives rise to the b-Amyloid and Amyloid A4 proteins, which are present in human platelets. Amyloid deposition is associated with type II diabetes, Down syndrome and a variety of neurological... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [APP/3667]                                                                                                                                                                                                                                                    |
| UniProt                    | <a href="#">P05067</a>                                                                                                                                                                                                                                        |
| Purity                     | Protein A/G affinity                                                                                                                                                                                                                                          |
| Form                       | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                                                                                                                                                                                                |

|                    |                                                                                       |
|--------------------|---------------------------------------------------------------------------------------|
| Antibody Type      | Primary Antibody                                                                      |
| Application Dilute | Immunohistochemistry (FFPE): 1-2ug/ml                                                 |
| Application Notes  | Optimal dilution of the Amyloid beta antibody should be determined by the researcher. |
