| Immunogen                  | A synthetic peptide of human ATF5                                                                                                                                                                                                                             |
| Conjugation                | Unconjugated                                                                                                                                                                                                                                                  |
| Product Description        | ATF5 or Activating transcription factor 5, binds to cAMP inducible promoters and is involved in gene transcription. This protein binds the cAMP response element (CRE) (consensus: 5-GTGACGT[AC][AG]-3), a sequence present in many viral and cellular pro... |
| Molecular Weight           | Calculated MW: 31 kDa, Observed MW: 31 kDa                                                                                                                                                                                                                    |
| UniProt                    | <a href="#">Q9Y2D1</a>                                                                                                                                                                                                                                        |
| Purity                     | Affinity Purified                                                                                                                                                                                                                                             |
| Form                       | 50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40% Glycerol, 0.01% Sodium azide and 0.05% BSA                                                                                                                                                                         |
