| Category                   | Kits/Assays                                                                                                                                                                                                          |
| Species Reactivity         | Feline                                                                                                                                                                                                               |
| Product Description        | The Feline TNF-alpha contains the components necessary for quantitative determination of natural or recombinant TNF-alpha concentrations within any experimental sample including cell lysates, serum and plasma.... |
| Range                      | 16-1,000 pg/mL                                                                                                                                                                                                       |
| Form                       | Sandwich ELISA                                                                                                                                                                                                       |
| Samples                    | Plasma, Serum, Cell Culture Supernatant                                                                                                                                                                              |
| Target                     | TNF-alpha                                                                                                                                                                                                            |
