## Product Datasheet

### **C Reactive Protein (CRP), Clone: [S5G1], Mouse, Monoclonal ANO-MO-M40023E**

|                            |                                                            |
|----------------------------|------------------------------------------------------------|
| Article Name               | C Reactive Protein (CRP), Clone: [S5G1], Mouse, Monoclonal |
| Biozol Catalog Number      | ANO-MO-M40023E                                             |
| Supplier Catalog Number    | MO-M40023E                                                 |
| Alternative Catalog Number | ANO-MO-M40023E-0.5MG, ANO-MO-M40023E-0.1MG                 |
| Manufacturer               | Anogen-Yes Biotech Laboratories                            |
| Host                       | Mouse                                                      |
| Category                   | Antikörper                                                 |
| Application                | EIA, FC, IHC                                               |
| Species Reactivity         | Human                                                      |
| Immunogen                  | Purified albumin from human pleural fluid                  |
| Product Description        | Mouse monoclonal antibody to human albumin...              |
| Clonality                  | Monoclonal                                                 |
| Clone Designation          | [S5G1]                                                     |
| Isotype                    | IgG1,k                                                     |
| Purity                     | Protein G affinity purified                                |
| Form                       | Aff. pur.                                                  |
| Storage                    | Store at -20°C                                             |
| Target                     | Human albumin                                              |

|                    |                                                                                                           |
|--------------------|-----------------------------------------------------------------------------------------------------------|
| Application Dilute | Double distilled water is recommended to adjust the final concentration to 1.00mg/mL.                     |
| Application Notes  | Fluorescence flow cytometry. Immuno-fluorescence staining. ELISA:<br>This antibody reacts with human CRP. |
