| Manufacturer               | Aviva                                                                                                                                                                  |
| Host                       | Rabbit                                                                                                                                                                 |
| Category                   | Antikörper                                                                                                                                                             |
| Application                | WB                                                                                                                                                                     |
| Species Reactivity         | Human, Mouse                                                                                                                                                           |
| Immunogen                  | This PAQR3 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 242-270 amino acids from the C-terminal region of human PAQR3. |
| Product Description        | Progestin and adipoQ receptor family member 3, progestin and adipoQ receptor family member 3 isoform 1 [Homo sapiens]...                                               |
| Clonality                  | Polyclonal                                                                                                                                                             |
| Concentration              | Approximately 0.5mg/ml. Actual concentration varies with each lot.                                                                                                     |
| Molecular Weight           | 36217                                                                                                                                                                  |
