| Application                | ELISA                                                                                                                                                                                            |
| Species Reactivity         | Human                                                                                                                                                                                            |
| Product Description        | Human LIPF ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of human LIPF in serum, plasma or other biological fluids.... |
| Range                      | 0.156-10 ng/ml                                                                                                                                                                                   |
| Sensitivity                | 0.057 ng/ml                                                                                                                                                                                      |
| Samples                    | Serum, plasma or other biological fluids.                                                                                                                                                        |
| Target                     | LIPF                                                                                                                                                                                             |
