| Product Description        | Rat PLTP ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of rat PLTP in serum, plasma, tissue homogenates or other biological fluids.... |
| Range                      | 12.5-800 ng/ml                                                                                                                                                                                                   |
| Sensitivity                | 5.5 ng/ml                                                                                                                                                                                                        |
| Samples                    | Serum, plasma, tissue homogenates or other biological fluids.                                                                                                                                                    |
| Target                     | PLTP                                                                                                                                                                                                             |
