| Product Description        | Mouse Myotrophin ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of mouse Myotrophin in serum, plasma or other biological fluids.... |
| Range                      | 6.25-400 pg/ml                                                                                                                                                                                               |
| Sensitivity                | 2.67 pg/ml                                                                                                                                                                                                   |
| Samples                    | Serum, plasma or other biological fluids.                                                                                                                                                                    |
| Target                     | Myotrophin                                                                                                                                                                                                   |
