| Product Description        | Human Gli1 ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of human Gli1 in tissue homogenates, cell lysates or other biological fluids.... |
| Range                      | 0.312-20 ng/ml                                                                                                                                                                                                      |
| Sensitivity                | 0.122 ng/ml                                                                                                                                                                                                         |
| Samples                    | Tissue homogenates, cell lysates or other biological fluids.                                                                                                                                                        |
| Target                     | Gli1                                                                                                                                                                                                                |
