| Species Reactivity         | Rat                                                                                                                                                                                            |
| Product Description        | Rat NM23A ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of rat NM23A in serum, plasma or other biological fluids.... |
| Range                      | 0.312-20 ng/ml                                                                                                                                                                                 |
| Sensitivity                | 0.108 ng/ml                                                                                                                                                                                    |
| Samples                    | Serum, plasma or other biological fluids.                                                                                                                                                      |
| Target                     | NM23A                                                                                                                                                                                          |
