| Species Reactivity         | Human                                                                                                                                                                                                                                |
| Product Description        | Human NFAT2 ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of human NFAT2 in serum, plasma, tissue homogenates, cell lysates or other biological fluids.... |
| Range                      | 15.6-1000 pg/ml                                                                                                                                                                                                                      |
| Sensitivity                | 5.9 pg/ml                                                                                                                                                                                                                            |
| Samples                    | Serum, plasma, tissue homogenates, cell lysates or other biological fluids.                                                                                                                                                          |
| Target                     | NFAT2                                                                                                                                                                                                                                |
