| Application                | ELISA                                                                                                                                                                                                                                                         |
| Species Reactivity         | Equine                                                                                                                                                                                                                                                        |
| Product Description        | Horse Interferon gamma ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of horse Interferon gamma in serum, plasma, tissue homogenates, cell lysates, cell culture supernates or ot... |
| Range                      | 15.6-1000 pg/ml                                                                                                                                                                                                                                               |
| Sensitivity                | 6.1 pg/ml                                                                                                                                                                                                                                                     |
| Samples                    | Serum, plasma, tissue homogenates, cell lysates, cell culture supernates or other biological fluids.                                                                                                                                                          |
| Target                     | Interferon gamma                                                                                                                                                                                                                                              |
