| Species Reactivity         | All                                                                                                                                                                                                                                                     |
| Product Description        | Universal DHEA ELISA Kit is a competitive Enzyme-Linked Immunosorbent Assay (cELISA) designed for the in vitro quantitative determination of universal DHEA in serum, plasma, cell culture supernatant, cell or tissue lysate, other liquid samples.... |
| Range                      | 1.562-100 ng/ml                                                                                                                                                                                                                                         |
| Sensitivity                | 0.938 ng/ml                                                                                                                                                                                                                                             |
| Samples                    | Serum, plasma, cell culture supernatant, cell or tissue lysate, other liquid samples.                                                                                                                                                                   |
| Target                     | DHEA                                                                                                                                                                                                                                                    |
