| Product Description        | Human AKR1B10 ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of human AKR1B10 in serum, plasma, tissue homogenates, and other biological fluids.... |
| Range                      | 0.781-50 ng/ml                                                                                                                                                                                                               |
| Sensitivity                | 0.469 ng/ml                                                                                                                                                                                                                  |
| Samples                    | Serum, plasma, tissue homogenates, and other biological fluids.                                                                                                                                                              |
| Target                     | AKR1B10                                                                                                                                                                                                                      |
