| Product Description        | Human FLIP ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of human FLIP in serum, plasma, tissue homogenates, and other biological fluids.... |
| Range                      | 78.125-5000 pg/ml                                                                                                                                                                                                      |
| Sensitivity                | 46.875 pg/ml                                                                                                                                                                                                           |
| Samples                    | Serum, plasma, tissue homogenates, and other biological fluids.                                                                                                                                                        |
| Target                     | FLIP                                                                                                                                                                                                                   |
